

MACHINE INFORMATION & SAFETY

Please read the machine-specific information provided before operating.

Before operating

- Only operate the machine if you are competent, authorised and fit to do so.
- Complete a visual pre-start check and report any damage, leaks or concerns.
- Read the supplied operating manual and become familiar with all controls.
- Wear suitable PPE and keep children, bystanders and animals clear of the work area.

While operating

- Use the machine only for its intended purpose and within its rated capacity.
- Check the area for overhead, underground and surrounding hazards before starting work.
- Do not remove, bypass or interfere with guards, alarms or other safety devices.
- Stop immediately if the machine behaves unusually or you are unsure how to proceed.

After use

- Park on stable ground, lower attachments, apply the park brake and switch the machine off.
- Leave the machine reasonably clean and ready for collection.
- Tell Kalbeeba Hire Co promptly about any damage, fault, warning light or incident.
- Do not attempt repairs or adjustments unless instructed by Kalbeeba Hire Co.
